

Specialists in Companion Animal Neurology (SCAN), is currently looking for a **full-time Veterinary Technician** to join our team.

### **Full-Time/Swing Shift**

Participation in on-call rotation is required.

The **Veterinary Technician** assists the doctors to the fullest possible extent, to help improve the quality of care given to the patients, and to aid the doctors in achieving greater efficiency by relieving them of technical work at Specialists in Companion Animal Neurology.

### **RESPONSIBILITIES WILL INCLUDE:**

- Assists in multiple procedures providing care for animals including physical examinations, anesthesia induction and maintenance, advanced imaging, cerebrospinal fluid collection, sample submission, surgical procedures, injections, euthanasia, client education, and inventory maintenance.
- Obtain and record thorough patient histories into ezyVet.
- Collect specimens and perform routine laboratory procedures and tests.
- Dispense and administer medications IV, IM, and per OS. Administer fluids and medications as prescribed by the veterinarian.
- Assist in diagnostic, medical and surgical procedures using a range of high-tech diagnostic equipment including electrocardiographic, electromyographic and radiographic and magnetic resonance imaging equipment.
- Maintain knowledge of common neurological recommendations in order to answer client questions, provide education on MRI, cerebrospinal fluid collection and analysis, and common neurology specific surgical procedures.
- Present patient care estimates to clients and be able to answer questions regarding routine diagnostic and therapeutic procedures as recommended by the veterinarian.
- Educate clients on products and medications sold and answer questions regarding product purchase/use.

### **QUALIFICATIONS**

- Licensed Veterinary Technician preferred
- More than 2 years' experience working in Specialty Veterinary Nursing preferred.
- Knowledgeable of all federal and state animal health laws and regulations including OSHA and DEA.
- Possession of strong organizational skills.
- Knowledge of the spelling and meaning of commonly used terminology of veterinary medicine, including the specialty of neurology, to accurately record results of tests and filing of veterinary medical reports.

- Strong communication and motivation skills. Has the ability to effectively solve problems dealing with staff conflict to personnel issues and performance. Has the ability to direct, guide and assist a group of individuals.
- Knowledge of the use, care, and storage of veterinary instruments, materials, and equipment.
- Knowledge of sterilization techniques to sterilize various instruments and materials.
- Knowledge of the instruments, materials, and standardized procedures used in the full variety of treatments to make preparations and provide “tableside” assistance.
- This position requires a working knowledge of pharmaceutical drugs and common dosages, common neurological diseases; their symptoms, means of transmission, treatment and prevention, and other basic preventative health care recommendations.
